Cyprus Government Railway.

The Limassol S.S. Co. steamers with good passenger accommodation run between Cyprus & Egypt as follows:—

Leave	Port Said	Wed.	25th	September	10 a.m.	Arrive	Famagusta	Thur.	26th	Sept.	2 p.m.
„	„	„	9th	October	10 a.m.	„	„	„	10th	Oct.	2 p.m.
„	„	„	23rd	„	10 a.m.	„	„	„	24th	„	2 p.m.
„	Famagusta	Sat.	5th	„	3 a.m.	„	Port Said	Sun.	6th	„	7 p.m.
„	„	„	19th	„	3 a.m.	„	„	„	20th	„	7 p.m.
„	„	„	2nd	November	3 a.m.	„	„	„	3rd	Nov.	7 p.m.

Trains run alongside the steamers on the quay, and passengers can be conveyed to Famagusta, Nicosia, Morphou and intermediate stations. Good hotel accommodation for tourists is provided at Famagusta, at the Savoy Hotel (Mr. Najem Houry proprietor). Olympus Hotel, Mount Troodos, 6000 ft. above the sea. Magnificent scenery. Perfect climate. Season May to end of October. For information apply to Mr. Najem Houry, Managing Director of Cyprus Hotel Co. Army Contractor, Limassol, Cyprus, or to the Manager, "Egyptian Gazette" Alexandria. There is a good carriage road from Kopia (on Railway) to Troodos. At Famagusta may be seen the fine old Latin Cathedral (now a mosque) begun in 1300 and finished in 1312, together with other ancient ruins and the Venetian fortifications, the finest in the world. Also the tower or palace, the scene of "Othello" and of Ford's "Lover's Melancholy." The climate of Cyprus in the winter months is delightful and the Island will well repay a visit.

Information as to tickets, trains, etc., may be obtained of Messrs. Thomas Cook & Son, Egypt, or from the General Manager Railways Famagusta. G. BERT DAY, General Manager. 29948—31-12-907

THE GREATEST care should be taken in what we eat and drink, yet we are too often indifferent and careless, notwithstanding health depends on what we eat and drink.

In regard to drink nothing but the best should be taken. It costs no more than the indifferent quality, if people would only ask for what they know is the best Old Scotch Whisky is the most wholesome beverage yet known **Mackie's Scotch Whisky** gives an undoubted guarantee to those who are not judges of quality.

CITY ANALYST'S LABORATORY,
138 BATH STREET,
GLASGOW, 8th October, 1906.

I hereby certify that I have taken samples of every vatting of **Mackie's White Horse Cellar** Blend of Scotch Whisky used in bottling during the month of September, and the results of my analyses indicate that it conforms to the standard for Pot Still Scotch Whisky set up in the London case. I am also of opinion that it is an old Whisky of excellent quality and flavour, which has been well matured in wood.

JOHN CLARK, Ph.D., F.C.S., F.I.C.,
Public Analyst for the City of Glasgow and the Counties of Lanark, Renfrew, &c.

N.B.—This Whisky is the same as supplied to the Red Cross Society, London, to the House of Lords and House of Commons.

LIFE'S EVOLUTION.

Mr. F. Butler Burke has a very interesting article, entitled "Artificial Cells and Artificial Life," in the September issue of the "World's Work." "The work in which I have been engaged has led some people to suppose that the problem of life's origin has been solved," he writes. "I need hardly say that no greater misapprehension could possibly have been countenanced. A theory has no doubt been put forward which may, as I venture to think, give a clue in some manner to the solution of that problem. But this is quite a different thing from maintaining that the problem has been solved. Or that it is likely that it will be solved for many days to come, if it ever will be.

"In the study of artificial forms of life my endeavour has been rather, if I may put it so, 'to hold, as it were, the mirror up to Nature.' Many attempts have been made before now to solve this great enigma of life's origin. But they have one and all been futile, as indeed all attempts in the future are also likely to be. The most that we can hope to do is to obtain a clue as to how life may have arisen. We may, by experimental analogues, arrive at results which run parallel to the actual processes which once played their part in the remote prodigious vista of the past. And we may be led to postulate the conditions and the modes of operation which must necessarily have then existed. Such a step may be useful in itself, and may mark much progress in the right direction.

"But even if it should give a clue, and a satisfactory clue perhaps, to the solution of the problem, it must not on that account be supposed that the problem itself has been solved, still less so that life has been produced by artificial means around us. For the precise conditions are just those which we find it so difficult, if not impossible, to divine. We should dismiss from our minds the illusion that we may find the final solution of this enigma in the laboratory, in bottles, or in test-tubes. On the other hand, we should not abandon in despair the hope, to which some of us may fondly cling, of yet being able to read some day for ourselves the still unwritten chapter in the history of our planet when life first made its appearance as an ancestor to develop, in countless æons, into ourselves.

"We may regard the study of artificial cells, particularly those in protoplasm, as leading us onward by the same principles as those which led to the Origin of Species, onward towards the origin of cellular protoplasm, and likewise of cellular life.

"In this respect, the title which I have ventured to give my book, 'The Origin of Life,' considering the line of argument I have ventured to pursue or the doctrine therein put forward, is perhaps the most appropriate to its subject. For it is, as I maintain, the doctrine of evolution applied also to the evolution of life. And the problem of life thus becomes resolved into a problem of physics, wherein the individual atoms themselves by natural selection in forming suitable aggregates play their part in the struggle for existence by the survival of such of them as may be best fitted to live."

LOCAL AND GENERAL.

The "Olivemoor."

The discharging of cargo from the "Olivemoor" continues, the chief cargo discharged being fire bricks, and tins of oil. The cargo is now being transferred to the Bonded Warehouse.

The Lebanon.

It is reported that the new Governor General of Lebanon, Youssef Pasha, has been instructed from Constantinople to dissolve the Administrative Council of the Lebanon "Magles Aliddara."

Roumanian Mail Line.

The resumption of the regular steamer service of the Maritime Roumain between Constanza, Constantinople, and Alexandria was made by the new S.S. "Dacia" which left Constanza on the 19th inst. and is due at Alexandria on Monday.

The Brindisi Mail.

The mail for Europe via Port Said and Brindisi will be made up at the G.P.O. Alexandria, at 3.10 p.m. on Monday for ordinary correspondence, 2.10 p.m. for registered correspondence, midday for money orders and insured articles and at noon on Sunday for parcels.

Coal Imports.

Between January 1 and September 20 934,940 tons of coal were imported into Egypt, of which 510,781 tons were Welsh 119,099 Newcastle, 148,157 Yorkshire, 78,655 Scotch and 78,248 other qualities. During the corresponding period of last year the coal imports totalled 853,271.

Mex Tram Line.

In consequence of the repairs being carried on at the Ibrahim bridge at Gabbari by the Irrigation Service, the last trams from Rond Point to Mex and vice-versa will leave at 8.30 p.m. from the former terminus and 9.30 p.m. from the latter from Monday next until Saturday the 28th inst.

Theft From A Train.

M. Alexandre Dimitraki, an agricultural engineer and chief accountant of the Ghirgheh irrigations, fell asleep in a 1st class compartment of the Sohag to Cairo train. Soon after passing Assiout he awoke, and immediately perceived that his portmanteau, containing jewels, bills, and banknotes to the amount of £500 had disappeared. All search after the missing bag was unsuccessful.

Yesterday's Italian Fete.

The Italian Fête of the 20 September, the anniversary of the taking of Rome by the Italian troops, and the abolition of the Pope's temporal power was duly celebrated in Cairo and Alexandria. Receptions were held at the Consulates in the morning, flags were hoisted over the various Italian establishments and houses, and in the evening special performances took place at the theatres and music-halls.

A New Italian Line.

The Florio-Rubattino S. Nav. Co. are about to establish a monthly service between Italy and the Red Sea, calling at Port Sudan, Massawa, Hodeidah, Aden Djibonti. The S.S. "Adria" sailing from Suez on the 14th October 1907 will inaugurate this new line. Mr. L. Deperais the Company's Agent at Suez, will proceed for an inspection to the above mentioned ports, early in October and at the same time appoint agents.

PERSONAL AND SOCIAL.

Prince Aziz Pasha Hassan has left for Cairo.

Mustapha Pasha Fahmy, the Prime Minister, will return from Europe on the 15th prox.

Sir Vincent Corbett and Ahmed Pasha Mazloum have returned from Cairo to Alexandria.

Mr. King Lewis, Director General of the Egyptian Customs, will arrive from Europe on the 1st October.

Mr. Rowland Snelling, Editor and Manager of the "Egyptian Gazette" will arrive from Europe next Saturday via Constantinople.

We regret to learn of the death of Bimbashi M. E. I. Gunthorpe, 13th Sudanese, which occurred at Roseires on the 6th inst.

We are informed that Messrs Willoughby E. Peel and Edward T. Peel, sons of the late Mr. W. F. Peel, have been admitted as partners into the firm of Peel and Co. as and from the 1st August 1907.

Amongst the visitors staying at the Beau-Rivage Hotel, Ramleh, we notice Miss G. de Angeli, Miss Lea Rathgen, Mr. A. Morris, Mr. and Mrs. Zariffa and family, Mr. H. L. Jones, Mr. Salah Bey Asis, Mr. S. Sommermeyer, Mr. H. Lisdke, Avocat and Mrs. Nassiff, Miss Meta Deycks, Mr. R Prietze, Mr. and Mrs. Johnston, Mr. S. Vita Farahat, Mr. Soliman Nahas, Mr. E. H. Mann, Mr. and Mrs. Marengo and family, Mr. and Mrs. A. W. Murdock and family, Miss Filo Agopian, Mr. James Watson, Miss E. Tedeski, Mrs. and Miss de Re, Dr. H. Langsdorf, etc.

EGYPT'S FOREIGN TRADE.

IMPORT OF GOLD.

The publication of the Customs Monthly Report of Foreign Trade enables us to figure out the net imports of gold during the cotton year of September 1906 to August 1907 at 5 ¾ millions sterling, about 7% of the entire world production of the yellow metal last year.

How much of this amount remains in the banks of the country can, in the absence of monthly statements of the banks, be merely conjectured: but probably about two millions will not prove wide of the mark. Of the balance a large amount undoubtedly remains in the hands of the skilled and unskilled labourers, whose earnings have never previously approximated to the current rates, while meltings for native jewellery have as usual absorbed a large amount, the minimum estimate being 1/2 million sterling: and beyond these items the unknown amount of native hoardings have to be reckoned

It has been stated on the highest authority that this propensity is common not only among the poorer class of natives but also among the well-to-do.

Such fatuity by restricting the supply of currency has accentuated the monetary crisis, in consequence of which the fellahen have been compelled to sell a portion of their cotton crop at prices considerable below what would have been obtained had they permitted their hoardings to circulate freely. It is to be hoped that the experience may be a serviceable lesson to them.

THE TROUBLE AT CASABLANCA.

To the Editor of the "Egyptian Gazette."

Dear Sir,—To judge from the comments in the Egyptian Nationalist Press not to mention some of our own Radical papers, the entire blame of the bloodshed and destruction that took place at Casablanca during the bombardment is being thrown on the shoulders of the French troops and sailors. The Moors, whose apologists in this and other countries never mention the fact that the protegés are so accustomed to traffic in human flesh and to inflict judicial torture on criminals, are depicted as innocent victims of outrage and barbarity, who only made one mistake, viz. the murder and mutilation in a fit of high spirits of some foreign workmen, who of course were only common working men and therefore not worth reprisals.

In the "Daily Telegraph" of September 10 we read—"a Spanish woman who was carried away by the Moors from Casablanca at the time of the first bombardment was found by the French outposts crawling along on her hands and teet. . . . She has practically lost her reason and although she has evidently been treated in the most shameless manner is unable to give any account of her sufferings" Again "the keeper of a tavern in the outskirts of Casablanca has been a captive for over a month. . . . and is undergoing terrible and barbarous treatment, being compelled to work in a naked state like a beast of burden, drawing water from a well and being beaten cruelly" Again there is the case of a Spanish woman named Amalia de la Cruz, held captive and suffering cruel treatment, while the unfortunate Jews of Casablanca suffered every species of atrocity from the gallant and chivalrous tribesmen; sons were killed and daughters outraged before the eyes of their parents and every bestial and cruel act that has been perpetrated at the expense of this much-persecuted race by Russian pogroms was repeated by the heroes of the Atlas.

Under these circumstances I am surprised to learn that the French have taken prisoners and are locating a certain number of Moorish wounded in their hospitals, and admire the humanity of their soldiers in so doing for 'Conventions' and 'Laws' of war only hold good against enemies who observe them. In a war one takes prisoners, gives quarter, and restrains soldiers from acts of outrage and pillage because the enemy does the same. The Russo-Japanese war which was very fairly and honourably fought was a case in point, whereas in the war in China in 1900 the Chinese, whatever the rights of their case—and they had had great provocation—indulged in disgusting cruelties at the expense of missionaries, Russian workmen employed in Manchura, sisters of charity and other harmless persons, attacked ambassadors — an unheard of outrage in modern times, in short, conducted the campaign with the maximum of cruelty and savagery, with the result that it was quite impossible to restrain the Japanese and European forces from retaliating with the utmost fury, killing prisoners and sacking towns. Of course sentimentalists are always at hand to charge Europeans or Japanese or Turks or whoever the invaders of barbarous or semi barbarous countries may be, with and barbarity cruelty. But do these people, who as a rule have never seen violent death, recognise that there is a limit to human endurance, that nothing in the world could have stopped the Japanese, magnificiently disciplined as they are, from sacking Port Arthur when they found that Japanese prisoners had been tortured to death by the garrison, and that the massacres and outrages inflicted on European non combatants, e.g. at Campore, during the Indian mutiny rendered it extremely difficult for the humanest of the British Generals to restrain their men? If the heroic but barbarian defender of his native soil commits atrocities at the expense of women and non combatants, he cannot grumble if the civilised invader displays some ill temper for he is still human. To do them justice the Moors have not yet complained. Perhaps they realise the truth of the Arab verse, translated by Sir A. Lyall.

"Ye must pay for all ye play for, when your heads are on the game."

CAIRENE.

Cairo, September 20.

PRESS LIBEL CASE.

APPEAL COURT'S JUDGEMENT.

The Court of Appeal gave judgment this morning in the action for libel brought by the Mamour of Karmous kism, Alexandria, against the proprietors of "Al Mokattam," "Al Watan," and "Al Shark." The judgment of the Court of First Instance was upheld with the exception of the reduction of the civil indemnity from £50 to £5.

SOUND EGYPTIAN INVESTMENTS.

KHEDIVIAL MAIL LINE.

In pursuance of our policy of recommending sound Egyptian investments to our readers, says the "African World," we this week advise buying Khedivial Mail S.S. and Graving Dock Company's ordinary at 21s. The concern is one of the soundest in Egypt, and has now entered on a period of prosperity which should be of lasting duration. Up to a couple of years back the company had had bad luck, serious losses being entailed, owing to circumstances over which it had no control, but a decided turn for the better took place in the year 1905, when the trading profit amounted to £58,000, after deducting depreciation, interest, directors' fees, etc. Out of this sum three years' arrears of dividends were paid to the preference shareholders, having sufficient for a 10 per cent. dividend on the ordinary shares. While the results last year were not quite so satisfactory, they still allowed of a 10 per cent. dividend being paid to the ordinary shareholders, after the claims of the preference shares had been satisfied, and we understand that the progress of the company during the current year has been highly encouraging. It may not be out of place if we give a brief *résumé* of the company's history. Formed in 1898 to take over a concession from the Egyptian Government for the working of its fleet of steamers, which then consisted of eleven vessels, plying in the Red Sea and Levant, it has since extended its scope, until it now possesses a fleet numerically double but otherwise far more imposing. Of the original ships taken over from the Government only six remain, the company having acquired or built sixteen new vessels since its incorporation. Included in the company's concession was authority to construct a graving dock large enough to accomodate the biggest vessels entering Alexandria harbour. This dock, after being built, was disposed of to the Government on very favourable terms, which allowed of a proper proportion of the debentures being paid off. The company owns nine acres of land at Alexandria, and a similar area in Suez, both of which have enormously enhanced in value since the company's incorporation, and form a valuable asset. The company is one of the few which has been little affected by the recent crisis, although its shares have unduly depreciated, in common with all others. The general prosperity of Egypt has not been disturbed, and, with the continuance of this prosperity and the maintenance of the country's general health, there is every prospect of the company reaping a large share of the fruits. To meet the requirements of the company's growing trade the directors have just purchased the Quebec Steamship Company's s.s. "Pretoria," and this vessel left Newcastle yesterday for Alexandria. A further addition is contemplated in the near future, when the company intend to build a sister-ship to the magnificent "Osmanieh," which is now running successfully between Alexandria and Constantinople, for which trade it was specially built.

BABOO ENGLISH.

The "Spectator" publishes the following copy of a letter from a Bengali Baboo out of employment, sent to an officer in civil employ in Burma.

"Honored Sir,—Last evening while peregrinating through the city, I am hearing from friend who was likewise enjoying evening zephyrs that vacancy took place in your Highness office by death of Babu—poor man! I am greatly sorrowful for his demise, he has left gigantic family, who will feed their mouths devil knows. Your honor will see from my ludicrous and weak hearted tone of voice that I am well meaning, hard working, extra energetic devil may care sort, requiring abundant field for displaying copious brain power hitherto limited by blackguard schoolmaster. For my qualifications please note that I have passed middle English and also appeared for F.A., but was plucked thro ignorance of examiners. I am damnably well up in precise writing, drafting docking and office routine work, and in private life I can be addicted to swearing English Oath and other ramifications too numerous to mention, and can also drink one damn strong whisky peg. I am no orthodox believing all other superstitions of an ancient forefathers, but I am an iconoclast destroying idols and such like to great detriment of hypocrital and scoundral. It is with fervance that solicit your Majesty's hand and heart in moving this my petition to your own favourable condition my wife's heartfelt gratitude who will pray on bended knee for long and continued prosperity of your Majesty's Honor and all your posthumious children to follow up.

AUDH BEHARY LAL."

THE CAMEL CORPS DISASTER

The party that was sent by the Government to Bir Sultan in order to bring the arms and ammunition buried by the lost Camel Corps party has returned to Dongola Province after having successfully accomplished their mission. The arms and ammunition were found intact, as they had been buried in the ground; but some of the tents and provisions were missing, which shows that a caravan or a party of Arabs have passed there since the ill-starred Camel Corps party was lost.

LETTER TO THE EDITOR.

We do not hold ourselves responsible for the opinions expressed by our correspondents, but we wish, in a spirit of fair play to all, to permit—within certain necessary limits—free discussion.

"OCCIDENTAL AND ORIENTAL."

To The Editor of The "Egyptian Gazette"

Sir,— Much may be said pro and con about a plurality of questions raised in your yesterday's leader. Without philippizing I can from past experience and present correspondence from friends on the spot prove the white man less aggressive than the article makes him appear in Bellingham and British Columbia. Bellingham is the new and rising Pacific port in the state of Washington just south of the International boundary and 50 miles from Vancouver by rail. The Hindoo trouble there is not new but many months old and results from the British Columbian authorities rightfully "moving on" British undesireables into Uncle Sam's territory. Fancy mountainous British Columbia, a land of the hardiest Indians (natives) and still hardier sons of the Anglo-Saxon race all leading the necessary rough strenuous life of the frontier, hacking down gigantic forests, making railroads, digging mines, building towns, and doing all the work with a vim and vigour known only to the manly colonist who is such a miscomprehension in effete parts of the world. On the North Pacific slope its all hard work and no play. Idlers and stupids go under at once like a packet of shot. Many a waster "greenborn" and British miserable "remittance-man" has pinched, starved and finally suicided in such new lands where he is an unmitigated nuisance completely out of his element with his bump of adaptibility largely represented by a dinge. Think then of the lazy enervated Hindoo who has invaded this coast-line of hardy workers! White Britishers tried hard to make him in a small way useful like John Chinaman, laundryman and cook, but the Hindoo was useless out there and drifted to robbery, thieving and begging, not understood or tolerated where there is too much honest labour for every man, so the Hindoos were driven by British Police towards the American Bellingham where the so called "mild Hindoo" has for months annoyed, pestered, alarmed and insulted ladies in the streets and at their house doors. One lady was forced to abandon a beautiful home in Iro street to find protection in the heart of the city. A white man in those new lands annoys a woman at the risk of his life, but Europeans and home Britishers fancy coloured men should have this strange privilege. British Colonists and Americans grant this privilege at the point of the pistol, and "colour" is not the question, but it happens as a general rule most orientals and coloured races have no respect for female honour and dignity while Anglo-Saxons possess this respect in far higher degree. "Colour-line" is a misnomer and not a real explanation of rock bottom facts. Canadian Red-Skins, Druses, Japanese, etc. etc., have deep respect for white women, when other coloured races attain this moral level they shall receive more consideration. Locally we have our many unwanted Berbereens. In England recently bands of gipsies were chased from shire to shire and finally out of the country. It's not flag, nationality nor colour, but a question of moral level. Where the eternal feminine is absent as in new mining towns, etc. men of all colours tolerate each other fairly well. The colonist is suaviter in modo, fortiter in re (gentle in manners, resolute in deed) he prizes his women folk more than stay-at-homes and he will protect them, too, irrespective of British fire-side opinions.

Very faithfully yours.

C. W. ANDERSON NEARY.

Alexandria, September 18.

THE SYNAGOGUE PANIC.

To the Editor of the "Egyptian Gazette."

Sir,—I see in your issue of yesterday a statement that the panic in the Ismalaia Synagogue was caused by the lights going out. Please allow me to contradict this statement. The true cause of the panic was that one of the electricians gave the alarm of fire just as the lights went out; of course the lights going out helped to cause the panic, but was not the sole cause as they had gone out two or three times before. I enclose my card.

Yours truly

ONE OF THE WORSHIPPERS.

Cairo, September 20.

UNIVERSITE POPULAIRE LIBRE.

Rue Rosette, dans le local de l'Institut Savoia

La reprise régulière des Classes aura lieu le 1er octobre prochain.

Les inscriptions sont reçues au secrétariat de l'Université chaque soir pour les cours suivants: Arabe, Anglais Elémentaire, Anglais Supérieur, Français Elémentaire, Français Supérieur, Italien, Comptabilité Commerciale, Sténographie.

CASINO SAN STEFANO.

Ce soir sera donné la dernière fête de nuit au Casino San Stefano, qui sera aussi la plus importante de la saison. Toute la terrasse sera décorée et richement illuminée. Pendant le diner l'orchestre Bracale se fera entendre, ainsi que pendant le grandiose spectacle cinématographique, qui commencera à 10 heures. Après la séance cinématographique, il y aura un superbe feu d'artifice. Tout nous fait prévoir une fête des plus réussies.

Encore un excellent concert demain matin à 11 heures, dont voici le programme:

Eilenberg—Garde Grenadier—Marche
Wagner—Rienzi—Ouverture
Van Westerhout—Ronde d'amour
Gillet—Capricieuse
Massenet—Scènes Alsaciennes Suite.

ARMY AND NAVY.

(From our own Correspondent.)

LONDON, September 12th.

The appointment of Brevet Lieutenant Colonel. G. F. Milne, R. H. A, to the command of "U" Battery R.H.A, at Cairo, has been cancelled.

On vacating the post of commanding the Royal Garrison Artillery in Egypt, Major R Percy-Smith, R. G. A., has been appointed to the command of No. 1 Depot R. G. A., at Dover.

On promotion, Major H. Gordon, Leicestershire Regiment, A. A. G. on the staff of the Sirdar, remains with the Egyptian Army. Major Gordon has served with the Khedive's forces since November, 1900, so that he has rather more than three years yet to run before it is optional with him to return to regimental duty with the Leicesters.

Lieutenant Colonel J.M. Jones, Royal Army Medical Corps, Devonport, has been selected for service in Egypt, to where he goes at an early date. Lieutenant Colonel Jones joined the medical branch of the service in 1880. and attained to his present rank in 1900. As a civil surgeon he served in the Zulu War, 1879 (medal with clasp).

Colonel Whatman, who was second in command of the 20th Hussars when that smart light cavalry regiment was at Cairo four years ago, has just retired from its head, and has been succeeded by Major A.M.B. Jones, who was senior squadron commander at the period referred to.

The Army Council, with the approval of the King, has just done a graceful thing in conferring on Major General Sir Rudolph Baron Von Slatin Pasha, K.C.M.G., C.U.O., C.B., Inspector General of the Sudan for the past seven years, the rank of honorary major general in the British army.

The experiment with the military balloon at Aldershot has been successful beyond expectation. It was not at all supposed that the thing would be a perfect success at once, but it is understood that the defect in the machine has been discovered, and on the next occasion that it is experimented with, it is anticipated that a further success will be scored.

The ships of the Mediterranean Fleet are presently engaged in carrying out battle practice, which after all is the true test of the fleet's efficiency. The ships will leave their respective positions on the 3rd October, and rendezvous at a point 20 miles N.E of St. Elmo, making their quarterly passage trial to that point en voyage, each ship being due there at 11 a.m.

Second Lieutenant A. E. Smyth, 6th Inniskilling Dragoons, has been placed on duty with the draft for his regiment at Cairo. He will embark on the 25th inst.

Tha War Office has decided not to permit the new pointed bullet to be admitted as service ammunition yet, pending some exhaustive experiments. The possibilities of the pointed bullet are great. One of its great points is the remarkable flatness of its trajectory, it being practically point blank up to 600 yards. In home civilian circles it is coming greatly into favour. It is quite possible that the War Office will adopt the bullet when a better one has been discovered in the course of the next half dozen years.

It is solemnly announced that the Army Council, with a levity ill becoming that august body, has approved of the tune of "Wait for the Wagon" as the regimental march past of the Army Service Corps. As a matter of fact, the gallant wagoners have marched past to that inspiring lilt for many a long day, but we suppose it was unofficially. The new march past has the advantage of being known throughout the Empire, more particularly in those parts where Tommy Atkins literally waited for the wagon to fill the aching void caused by light rations and heavy work. There is something in appropriate tunes. We remember some years when a certain Indian fortress was vacated by the British troops the bandmaster of the last battalion, with an eye to the eternal fitness of things, ordered his command to strike up the romantic one of "Tommy make room for your Uncle."

CINEMATOGRAPHE URBANORA

Cette semaine le programme est changé aujourd'hui samedi, le vendredi ayant été réservé à la fête du XX Septembre. En voici le détail:

"Un drame Parisien"; "Le voleur au couvent"; "Manœuvres italiennes sur les Alpes," vue d'après nature; "La Breccia di Porta Pia," grande reconstitution historique en 12 tableaux faite avec le concours du Ministre de la guerre; "Une farce d'étudiants;" "Douleur et joie"; "Dans les chantiers de la Spezzia," vue prise d'après nature; "On demande une ouvrière," scène comique inédite.

Intermèdes-attractions: P. Delano, jongleur équilibriste dans un numéro inédit; O. Lampo, célèbre transformiste qui jouera à lui seul une pièce comico-tragique "Un scandale!" dont il remplit à lui seul les rôles de 14 personnages en exécutant 48 transformations instantanées. On accourra voir cet artiste, le seul rival de Fregoli.

SPORT AND PLAY.

CRICKET.

ALEXANDRIA v. CAIRO.

This two days' match commenced at 2 p.m. yesterday, the Cairo team which was not strong, losing the toss. Alexandria opened well to the bowling of Graves and Private Rice, H. B. Carver and Barnard putting on 25, when the former was caught in the slips. Barnard, who had hit very freely, followed being finely caught at short slip and though Marsden and Mainprice made a short stand six wickets were down for 70 runs; E. T. Peel and Prosser made a useful stand, but the innings closed for 129, not a good performance for so strong a batting side. It is worth noting that six of the ten batsmen out were taken in the slips or behind the wicket, Sherringham being in excellent form behind the stumps. The Cairo ground fielding and picking up was on the whole only moderate but every possible catch was held, Shuttleworth taking one capital catch low down with the right hand at long slip. The Cairo bowling was mostly steady, Graves (four for 36) and Sergt. Smith getting the best figures. Wright also bowled very steadily and had rather hard luck more than once.

Cairo did not start too well, Major Hoskins cutting a ball into his wicket early in the innings, and four men were out for 47, Wright who made some good strokes in his 32 being the only batsman who seemed very comfortable against the bowling of H. B. Carver and Prosser. Boys, who played a very useful innings, and Shuttleworth improved matters, and the Alexandria change bowlers were freely hit, Preston playing with the long handle knocking up 28 in very quick time. At the close Cairo had decidedly the best of the days play having scored 121 for the loss of six wickets. Shuttleworth who was undefeated when stumps were drawn played good cricket, punishing short balls on the leg side with great certainty. The Alexandria fielding was very good, but the bowling seemed to lack sting:

Score at close of play.—

Alexandria	... ...	129
Cairo	... ...	121 for six wickets

Full details of the score will be given in our issue of Monday.

RIFLE SHOOTING.

The match between the Sergeants King's Royal Rifles and the British Rifle Club, last Tuesday, was won by the former. At the 200 yards range the Club led by 14 points, but their opponents caught them up at 500yds and finished with 17 points in their favour. Scores:—

Sole Agents for England: Messrs. BENSON & HEDGES, 13 Old Bond St., London, W

THE WHITE-MAN'S NIGHTMARE.

The individual Englishman is usually an optimist, has very few fears, disbelieves in hell, and, like the American, is at heart quite confident that his country, aided by Providence, will in some way or other "muddle through." The collective Englishman, on the other hand, is apt to be exceedingly pessimist, believes that each event *may* have disastrous consequences, and finds, what is at least singular, a kind of enjoyment in nightmares. He really believes, or thinks he believes, in the coming arrival of vast disasters; fails to find comfort in his long history of success; forgets that the awful blow which was to have destroyed him, the successful revolt of the American Colonies, doubled the power of his race without reducing that of his own section of it; and, for all his pride, though it often amounts to arrogance, often expresses confidence in his approaching destruction by the darker peoples. No Englishman is really afraid of China, but the British as a whole are greatly moved by prophecies of the "yellow peril." The fact that if all the yellow men in existence reached the shores of the North Sea, they could not cross it without permission of H.M.S. 'Dreadnought'—a circumstance of precisely the same kind as that which stopped Xerxes—is never taken into consideration. They hear of a "wave of discontent" sweeping over India, and begin talking of the great revolt of 1857, without reflecting that since then the effective white garrison of the peninsula has been multiplied by five, that the whites control all effective artillery, that India has been covered with railways arranged for military as well as commercial purposes, and that India is less than half the distance from Great Britain that it was when the massacres of fifty years ago made the islanders shut their teeth. They forget that the huge mass of the great Dependency is broken by dozens of native States whose Princes no more desire a popular uprising than we do, as well as by those numberless differences of creed, caste, occupation, and civilisation which in 1857 arrested any popular revolt, and practically left the drilled sepoys, though objects, it may be, of popular sympathy, as rebel armies hanging in air. Hundreds, possibly thousands, will, we doubt not, read the paper on "The Moslem Menace" which Captain Wilson has contributed to the *Nineteenth Century* for this month with a sense that it reveals a frightful, though not an immediate, danger both to Europe and to themselves. The idea of that writer is that all Africa may be in insurrection at once, and the whites throughout Africa may be slaughtered out. Granted certain premises, he has, of course plenty of alarming "facts. It is quite certain that there are numerous military monasteries in the hinterland of Tunis belonging to Mussulmans of the sect of the Senoussi, and that this sect, which must be dreadfully bored by the secluded method of its existence, would like very much to restore what it conceives to be the divinely ordained position of dominance to the devotees of the Faith. It is also a "fact" that the Moors of North Africa are bitterly hostile to all Christians, and could, as against France, arrange a very dangerous uprising. It is a "fact" also that the blacks of the Congo State, who must be millions in number, have been tortured and oppressed into a very bitter hatred for all white men. It may also be accepted as a fact that the black people of Southern Africa would, if they could, drive Englishmen, Dutchmen, and Germans all alike into the sea, feeling that they would be happier, or, at all events, prouder and less hardly worked, under military tyrants of their own blood. These things are all true; and it is conceivable therefore, that whenever they are all ready the whole of the black peoples of Africa might rise at once, slaughter out the handfull of whites now beginning to tax, to direct, and otherwise to interfere with them, and might for a moment be successful in that great effort. What is not true is the deduction that because such an explosion is conceivable it will therefore happen. Why should the Arabs, who are Mohammedans capable of civilisation, stake their lives for the benefit of negro pagans whom they regard with little more sense of brotherhood than their white rivals do? Why on earth should the Zulus, for example, accept the leadership of the Senoussi; and why should a set of military monks buried in the desert, whose resources for battle, intellectual and material, must be described as at all events limited, be able to organise a vast continent filled by millions of men differing in race, traditions, aspirations, and geographical situation for a campaign in which, as they well know, they must perish in thousands? Europe, no doubt, when every man in it was armed, and when its whole population was moved by one of those quasi-religious impulses which we describe and denounce by the word "fanaticism," organised a series of Crusades which had at least this advantage,—that they had a definite and limited geographical objective. Europe did not make much of that great effort, though its foes were certainly not equal in strength to the enemy which would now resist the blacks, and which, besides being better drilled and better armed, wields the almost limitless resources now devoted, by what Christians must describe as a misuse of science, to the slaughter of mankind. Even Asia could not now conquer Europe; and the idea that Africa could is one of these dreamy absurdities, born of a confusion between hatred and military strength, which for some unknown reason seem just now to obsess all but the best trained soldiers and Admirals of Europe. There may, of course, be—there probably are—many battles ahead of us in which the grand distinction between the contending armies will be differences either of colour or faith or both; but the assumption that those armies will be as numerous as nations, and that the white Christians will be defeated, is, if the testimony of history is worth anything, one of those dreamy speculations, which, we may remark, are not without danger, inasmuch as they suggest to the opponents of Europe that Europe is at heart afraid of them. It is not in the least afraid, but is using its intellect, in default of other objects, in order first of all, to describe all the dangers there may be; and secondly, to persuade taxpayers everywhere that it is better to expend their savings upon cannon than to run even a distant risk of being overwhelmed by a coloured soldiery.

The lesson of it all, as it seems to us, is to keep our consciences clear; to govern, when we have to govern, with mercy and justice; to be very moderate in the use of our scientific superiority; and not to provoke the collisions in which it will be a condition of safety to pour slaughter, as it were, out of a bucket. If we are challenged, we must accept the challenge; but at least let us be sure that the challengers, and not the Christians, are in the wrong. It was necessary, we suppose to shell Casa Blanca—we see no clear answer to that proposition—and certainly the French were challenged; but it will be well to avoid that kind of demonstration whenever it is possible, and to secure that half sullen, half-contented acquiescence which, no doubt, is not the most satisfactory of objects, but which at least prevents the children of the world from sacrificing millions of lives, besides all their future hopes, in a mad effort at "barring out" of which they hardly recognise the purpose, and during which they are certain to be blinded by their own mad fury as to the only methods through which success could be obtained. In Africa, as in Asia, the whites might possibly be defeated, or at all events perplexed, by passive resistance; but a rising for massacre, even though it were a rising of the whole coloured world against Europe and America, could be nothing but a *jacquerie*, and it is one of the great facts of history that no *jacquerie* has ever succeeded, except, indeed, when perpetrated through legal forms.

THE MASTABA OF MARON-BEBI.*

The long inscriptions and objects depicted upon the major portion of the walls contain a list of the comestibles and appurtenances for the banquet of the dead, and representations of its various items, such as vases and viands, vegetables, bread and cakes, wine and beers; also unguents to anoint the epicure with before his meal. Then there is a list of the complete funeral furniture to make the tomb a replica of his former earthly mansion, such necessaries as apparel and jewellery being displayed. But more especially the preparation of the sepulchral meal, so as to intensify its enjoyment, is set forth. These texts and tableaus are, as stated, somewhat mutilated, but can easily be restored from the hundreds of similar records now known. The whole catalogue is in reality the description of a day's feasting, commencing with the toilette at rising, then the menu pour déjeuner, followed by more elaborate preparations and personal adornment for the magnificent evening repast, succeeded by ablutions, for eating with the fingers was still de rigeur, and before the termination of the banquet the gourmet may have been somewhat unnerved.

One of the items mentioned by Marou-Bebi is an unusual one. It refers to a strange ceremony which took place before the symbolical "opening of the mouth," which obviously had to be achieved before the mummy could enjoy any of the delicacies provided for him. The novel operation (though not unknown before) is the strengthening of the jaws of the defunct, for which purpose a special amulet had to be used by the priests, and to be mentioned and designed, upon the wall, called a Peses-n-kef.

It is to be feared that Marou-Bebi was not a very abstemious Lector, for his mastaba texts promise him two kinds of cream to drink and also five kinds of beer and two of wine. The pictorial reliefs are designed to certify to the deceased that all the provisions and liquids will be duly forthcoming, and so we have representations of granaries and store-houses of all kinds, also of vases for containing perfumes and wines, of bales of linen and vestment materials, of collars of gold and pearls and bracelets to wear at the banquets, and even of head-rests or wooden pillows, similar in shape to those found among relics of the ancient Swiss "lake dwellers," for the defunct to use when sleeping off the results of his too hearty meal.

The Brussels Museum is to be congratulated upon the energy M. Capart has shown in rescuing this monument from oblivion; and Madame Jacques Errerd, who so generously contributed the cost of the acquisition for Belgium, should not be forgotten.

JOSEPH OFFORD.

CHRONIQUE FINANCIERE

Alexandrie le 20 Septembre.

La tenue du marché n'a pas répondu lundi à l'espoir qu'avait fait naître la légère amélioration de vendredi dernier. En dépit d'une certaine apparence d'activité, c'est en somme avec un volume d'affaires très restreint qu'a clôturé la séance. Quant aux fluctuations, elles ont été aussi rares qu'insignifiantes et cela n'a rien que de naturel dans l'état de marasme intermittent où nous nous débattons depuis des mois. A signaler seulement une demande en Ritz Hotels et en Urbaine, sans résultat bien appréciable d'ailleurs, puisque le gain de ces titres s'est réduit à 1/32.

Le lendemain le marché a débuté avec beaucoup d'animation, pour se calmer un peu plus tard et finir terne, mais relativement soutenu. Les valeurs dirigeantes ont été complètement délaissées, au profit de quelques autres d'ordre secondaire, parmi lesquelles figurent au premier rang et par ordre d'importance dans les transactions, la Delta Land, les Estates, l'Urbaine et les Ritz Hotels. Beaucoup de bruit, en somme, pour peu de chose. C'est le Caire qui vendait, comme cela ressort assez clairement du fait que c'étaient les arbitragistes qui travaillaient et que la tenue du marché dans la Capitale a été constamment plus faible qu'ici au cours de ces dernières séances.

Mercredi, à l'occasion du Grand Jeûne Israélite, la corbeille des valeurs a chômé.

Hier, après un début assez bruyant mais absolument nul comme affaires, une activité partielle a prévalu jusqu'à la fin de la séance Des transactions sans importance mais en nombre assez considérable ont eu lieu en Ritz Hotels, Estates, Comptoir, Delta Land, Obligations Crédit Foncier et National Bank. Pour celle-ci la demande provenait de Londres. Malgré tout, cependant, et en dépit d'une remarquable fermeté au Stock Exchange en ce qui concerne du moins les valeurs égyptiennes, notre marché n'a pas réussi à s'élever audessus d'un niveau médiocre. C'est que, à la moindre reprise, on réalise et les liquidations graduelles de comptes titres comme ceux de la Cassa di Sconto continuent naturellement à peser sur la situation. Rien d'étonnant dans de telles conditions, au déclin d'une crise et en plein drainage de numéraire par la récolte cotonnière, si une avance est difficilement conquise et non moins difficilement maintenue. Le Caire a bien cessé momentanément de nous inonder d'ordres de vente, mais on s'attend à ce qu'il recommence à la première occasion favorable, ses positions étant encore plus surchargées que les nôtres.

Aujourd'hui enfin, l'allure du marché n'a pas sensiblement différé de celle d'hier. Il y a toujours une certaine activité mais les échanges portent sur des quantités réduites. Quant aux fluctuations, elles sont par le fait assez inégales. On a particulièrement traité l'Agricole, la Delta Land, les Ritz et l'Urbaine. Comme tendance, c'est toujours l'indécision qui prévaut.

Dans le courant de la semaine, il a été vendu aux enchères publiques 100 Delta Land à 1 23/32, 70 Aboukir à 27/3, 100 Ritz Hotels à 19/32-5/8 et il a été acheté 100 Industrial and Building (Karam) à 23/64.

Comme on a pu s'en rendre compte par le court aperçu que nous venons de donner de la huitaine qui vient de s'écouler, les fluctuations n'ont pas affecté la moitié des valeurs inscrites à la cote officielle; elles sont d'ailleurs insignifiantes dans leur ensemble et se balancent exactement, 16 témoignant d'une hausse et 15 d'une baisse. Les seules variations appréciables sont une avance de 3/16 sur la National Bank à 20 3/8, une reprise de 3/8 sur l'Urbaine à 3 13/32 et un recul de 3 fr. sur les Dividendes Tramways à 298, de 7 fr. sur les Jouissances Eaux du Caire à 193, de 3 fr. sur l'Obligation ancienne Crédit Foncier à 297, et de 1/2 livre sur la Deferred Delta à 7 1/2.

La plus-value de la National Bank provient d'une demande de Londres et on attribue celle de l'Urbaine à un découvert, d'ailleurs peu important. La réaction de l'Obligation Crédit Foncier n'a rien de surprenant; elle se produit toujours à la suite du tirage du 15. Quant à la Deferred Delta, qui est un titre à champ restreint, il a suffi de quelques offres accompagnées d'exécutions pour produire une dépréciation relativement considérable.

L'Agricole progresse de 8 1/16 à 8 5/32, les Markets de 27/9 à 28/6, les Lots Turcs de 158 à 160, la Cassa di Sconto de 38 à 38 1/2, les Nungovich Hotels de 13 3/4 à 13 7/8, la Delta Land de 1 11/16 à 1 3/4, le Comptoir de 2 3/8 à 2 13/32, l'Union Foncière de 4 5/16 à 4 3/8, le Banco di Roma de 104 à 105, le Crédit Franco-Egyptien de 4 à 4 1/32, la Banque d'Orient de 117 à 119 1/2, la Port Said Salt de 13/9 à 14/-, la Levant de 19/32 à 5/8, et les Ritz Hotels de 1/2 à 5/8.

La Delta Light rétrograde, au contraire, de 9 3/4 à 9 11/16, les Privilégiées Tramways de 143 1/2 à 142, la Daïra de 12 3/4 à 12 5/8, la Privilégiée Bière du Caire de 88 à 87, la Salt and Soda de 18/6 à 18/-, l'Obligation nouvelle Crédit Foncier de 253 1/2 à 253, les Sucreries de 30 à 28 francs, les Estates de 21/32 à 5/8, l'Aboukir de 27/6 à 27/3, l'action Allotment de 2 3/8 à 2 1/4 et la fondateur United de 1 3/4 à 1 5/8.

Sur les marchés européens, les valeurs égyptiennes sont calmes et soutenues: la National Bank et la Delta Light gagnent 1/8 aux cours respectifs de 20 1/2 et 9 7/8; la Daïra perd 1/8 à 12 3/4 et l'Agricole demeure stationnaire à 8 1/4; l'action de Suez bénéficie de 28 fr. à 4575 et le Crédit Foncier Egyptien de 2 fr. à 690, tandis que la Land Bank revient de 186 à 183, la Banque d'Athènes de 113 à 112 et le Crédit Franco-Egyptien de 106 à 105.

Les fonds d'Etat qui intéressent le plus l'Egypte, à savoir le Consolidé Anglais et la Rente Française, subissent tous deux une moins-value, le premier de 3/8 à 82 1/8 et la seconde de 68 points à 94.12.

En ce qui concerne la situation monétaire mondiale elle n'a jusqu'ici dénoté aucun changement. Chaque pays reste sur sa position. L'Amérique se suffit pour le moment et l'Egypte vient à peine de commencer ses retraits, de sorte que nous trouvons le taux privé d'escompte au même niveau que vendredi passé ainsi que le taux officiel de la Banque. Celle-ci a vu sa réserve augmenter de 3/8 % à 51 5/8 %.

Cette proportion fait bonne figure comparativement à celle de l'année dernière. Il est vrai qu'à pareille époque en 1906 l'Egypte et l'Amérique avaient déjà pris une somme de 3 millions de livres. L'or en stock est d'environ £ 38 654.100 contre 35.045.700 l'année dernière à pareille date. Autant de circonstances favorables, mais qui ne permettent pas, cependant, de se prononcer sur l'avenir, car la demande d'or n'a pas cessé et les récoltes vont en absorber une forte quantité; on parle de 7 millions de livres pour l'Egypte. La raison du drainage de numéraire dans le monde entier proviendrait, écrit Paul Leroy Beaulieu dans l'Economiste Français, de l'impossibilité de l'épargne mondiale à satisfaire aux besoins du commerce et de l'industrie, qui sont dans leur plein épanouissement; Leroy Beaulieu estime à 16 milliards de francs les besoins pour 1906 et la faculté de l'épargne à un maximum de 14 milliards.

Plus près de nous, l'Egypte prospère, comme cela ressort à l'évidence du commerce du pays. Le mouvement avec l'Angleterre, qui était en 1902 de £ 20.034.000 a passé en 1906 à £ 26.011.000. Sur ce chiffre, les sorties figurent pour 16.858.000 et les entrées pour 9.153.000 contre 13.765.000 et 6.269.000 respectivement en 1902. Le coton représente à lui seul plus de 78 % des exportations totales. On comprend de la sorte que l'augmentation du prix ait influé sur les sorties l'année dernière, et c'est du maintien ou de la hausse de ce prix que dépend en somme l'avenir de l'Egypte et plus directement la fin de la crise financière locale. Ainsi que nous l'avons déjà dit, le cours de nos cotons peut être influencé par l'abondance de la récolte tant ici qu'aux Etats-Unis. Ici on l'estime de près d'un quart supérieur à celle de l'année passée, qui était exceptionnelle, et en Amérique elle est, paraît-il, sensiblement égale à celle de 1906. C'est pour cela que les cours ont fléchi ces temps derniers. Mais le coton égyptien peut se rattraper grâce à sa qualité, si les cotons fins manquent aux Etats-Unis comme l'année passée et nécessitent leur remplacement par de l'égyptien.

En attendant, la situation monétaire locale est toujours la même, l'argent est très cher, les avances presque nulles, et le crédit restreint. Les liquidations et exécutions continuent de plus belle, preuve qu'on a voulu tenir jusqu'au bout. Il est impossible de prévoir quelle sera l'issue de la tension actuelle ni la date de l'amélioration définitive: cela dépend de trop de circonstances connues, sans parler de celles plus nombreuses qui sont imprévues.

Lundi aura lieu la vente aux enchères publiques à la corbeille des valeurs d'Alexandrie des titres suivants: 65 Dividendes Tramways d'Alexandrie, 30 National Bank, 19 Privilégiées et 75 Dividendes Menzaleh Canal Co., 5 Deffered Wardan Estate, 75 Building Lands, 4 Obligations Crédit Foncier Egyptien émission 1886, 50 Dividendes Brasserie du Caire, 60 Privilégiées Delta Light, 150 Investment (Abdy), et 150 Egyptian Estates.

Hier à 4 h. p.m. a eu lieu la deuxième assemblée de la Building Lands, la première n'ayant pas réuni le quorum. En exceptant le conseil d'administration, il y avait en tout 7 actionnaires présents; et après cela ceux qui étaient absents se plaindront de la mauvaise gestion de leurs affaires! A l'unanimité lilliputienne des assistants, il a été décidé de racheter 12,500 actions au-dessous du pair, avec les sommes encaissées au fur et à mesure des échéances. Si c'est nécessaire, on fera une émission de 75,000 livres d'obligations qui seront allouées aux actionnaires. La modification aux statuts, qui figurait également à l'ordre du jour, a été renvoyée à une séance ultérieure, vu le petit nombre des actionnaires présents.

Ce matin s'est tenue la réunion des créanciers de la Bourse and Banking. Leurs avances représentent une somme de 86,000 livres. A la proposition de liquidation amiable, deux se sont opposés, quelques-uns se sont ralliés et les autres se sont réservés de répondre après avoir consulté leurs associés ou leurs avocats. Il résulte de l'enquête menée par la commission nommée à cet effet, qu'en se basant sur les prix minimum, l'actif réalisable au profit des créanciers s'élève à 44 1/2 0/0; les actionnaires se trouvent ainsi complètement écartés. A l'assemblée du 24 où assisteront les actionnaires et les créanciers de la Bourse and Banking, il y a donc cent à parier contre un que bon gré ou mal gré la société en sera réduite à déposer son bilan l'opposition d'un seul créancier ou d'un seul actionnaire étant suffisante à déterminer ce résultat. Quel est l'actionnaire qui, puisqu'il a tout perdu, ne voudra pas au moins avoir la satisfaction d'un examen impartial et légal, seul possible par ministère des tribunaux?

REVUE COMMERCIALE

Coton.

Par suite de la cessation d'affaires que nous avons eue Mercredi à l'occasion du grand Jeûne Israélite, la semaine que nous allons passer en revue se trouve partagée en deux périodes, non seulement inégales comme durée, mais aussi présentant des différences marquées comme allure du marché et sous le rapport de l'activité. Dans la première, la baisse a stimulé les transactions, tandis que les deux dernières n'ont guère été animées, si ce n'est comme cris et tapage. En tous cas, voici comment les choses se sont passées:

Sous l'influence des nouvelles d'Amérique et de la tenue peu brillante du disponible chez nous, la séance de Samedi a été lourde et elle a fini en baisse de 5/32. Comme début, les choses s'annonçaient mal, mais comme aussi d'Amérique les avis ne faisaient que signaler une situation qui se corsait, la matinée de lundi a été encore plus mauvaise et c'est en recul ultérieur de 15/32 qu'elle s'est terminée. Ce jour-là, le disponible n'a fait que peser sur l'état général, la baisse ayant fait de nouveaux progrès et l'exportation ayant montré beaucoup plus de réserve que les jours précédents.

Mais là où l'impression a été horrible, c'est à l'ouverture de mardi qui a eu lieu en débandade, et cela sur les cours de clôture d'Amérique venus en baisse de 40 à 50 points. Pour un moment, le désarroi a paru vouloir être complet, mais fort heureusement qu'un revirement n'a pas tardé à se produire: le cours de 18 11/16 pratiqué en passant a eu le don d'attirer les acheteurs, tant du côté du découvert que de celui du commerce, et, cette circonstance mise à profit, a permis aux haussiers d'aider à la reprise des prix et, par le fait même, d'empêcher une nouvelle compensation extraordinaire que chacun cherchait à éviter. En faisant remonter le Novembre à 19 1/16, le but s'est trouvé atteint.

L'interruption de mercredi n'a pas été un mal pour notre marché: il a eu une journée de répit et a pu attendre le développement de nouveaux événements en Amérique, lesquels, cette fois, lui ont été favorables. En effet, les clôtures de New-York de mardi et de mercredi ont annoncé l'arrêt de la baisse et même apporté une reprise de quelques points, qui a relevé un peu le moral de nos intéressés à la hausse, et c'est grâce à ce changement d'allure, ainsi qu'à quelques achats pour compte du commerce, qui à leur tour ont amené des rachats pour le découvert, que le Novembre a pu s'inscrire à 19 9/32 à la clôture d'hier.

Aujourd'hui au début il y a eu hausse, mais les défections dans le clan des haussiers n'ont pas tardé à attiédir les choses et, comme conséquence, c'est à grand peine qu'on a pu maintenir une partie de l'avance, la dernière cote ayant été de 19 11/32. L'appui du commerce a fait défaut ce matin.

En résumant le tout, nous nous trouvons à 11/32 au-dessous de Vendredi dernier, ce qui fait que la baisse chez nous a été égale à celle que nous avons eu à enregistrer pour les américains. Il est toutefois de fait que malgré ce semblant de raffermissement, la situation chez nous ne s'est pas modifiée, que le champ d'action de la spéculation est toujours confiné à quelques faiseurs peu nombreux, marchant tantôt d'accord, tantôt désunis, que bon nombre d'agences s'abstiennent encore de rentrer au marché, tandis que beaucoup d'autres sont encore forcées de limiter leurs opérations. Dans l'ensemble, il y a certainement du mieux, mais il passera bien de l'eau sous les ponts avant que l'on puisse dire que les effets de la crise ont disparu en tant que marché des contrats! A notre avis donc et à moins que l'Amérique ne nous fournisse une aide efficace et basée, le champ chez nous reste préparé pour la baisse, pas précipitée si l'on veut, mais graduelle.

Dans notre dernière revue, nous avons exposé toutes les raisons qui militent en faveur de notre opinion et ce ne serait que nous répéter que de revenir sur cette question. En attendant, nous ne faisons pas de difficultés pour reconnaître qu'il y a, d'autre part, deux points qui pourraient tout au moins atténuer la chûte éventuelle des prix: la meilleure demande pour le spot et la modération, ou pour mieux dire, la lenteur relative dans les arrivages qui semble devoir être le résultat du peu d'empressement montré par nos grands faiseurs dans leurs achats à l'intérieur. Il y a marge réelle pour eux, mais ils sont en général dans la crainte de ne pas pouvoir arriver à temps à placer la marchandise en filature et les circonstances locales ne sont pas de nature à leur permettre de se livrer à leurs opérations d'arbitrage sur une aussi large échelle que par le passé. En somme, il y a le pour et le contre dans la situation actuelle, mais ce qui est incontestable c'est qu'il y a manque de spéculation et que la campagne sera plus longue que d'habitude.

En Amérique, le découvert se rachète et il paraît positif que certains spéculateurs sont en train d'acheter en vue de préparer un coup à la hausse. Le beau temps ayant aidé les baissiers, quelques avis de rafraîchissement dans la température pourraient aider les futurs haussiers à leur tour!

Notre marché du disponible a été relativement animé, étant donné qu'à une fraction de plus ou de moins tout ce qui est arrivé a été absorbé par nos exportateurs. La semaine finit soutenue et quant aux prix, ils s'inscrivent en baisse de 7/8 pour le Good Mit Affifi et de 5/8 pour les provenances Haute-Egypte. C'est le seul classement coté pour le moment.

On a coté aussi pour la première fois le Nubari qui vaut 22 1/4 pour l'extra.

Les exportations de la semaine ne se sont élevées qu'à 4,400 Balles, contre 4,600 l'année dernière.

Pour la semaine prochaine on ne saurait faire de pronostics, mais il paraît certain qu'il y aura augmentation dans les embarquements. L'année passée la semaine correspondante a été de 4,600 Balles.

L'entrain a manqué pour les égyptiens disponibles à Liverpool, et pour ce qui est des prix, la baisse a été assez sensible, soit 5/16 pour le spot qui est tombé à 10 3/16 et 12/64 pour les futurs Novembre qui ont fini a 10 5/64.

Les américains ont été peut-être mieux partagés comme ventes, mais sous le rapport des prix, ils ont été assez maltraités. Le spot perd 19 points à la cote de 6.91, tandis que les cours des futurs à 6.26 pour l'Octobre-Novembre et 6.19 pour le Janvier-Février montrent respectivement 18 et 19 points de baisse.

Graines de Coton

Les arrivages sont non seulement satisfaisants et supérieurs à ceux de l'année passée pour la même époque, mais dépassent aussi sensiblement les besoins du moment, et c'est pour cette raison que la baisse du disponible ces jours derniers a été si rapide et si marquée. C'est par deux piastres à la fois que le recul avait lieu et le dernier cours pratiqué est de P.T. 73.

Les exportations, à en juger par les affrètements connus, semblent vouloir se développer rapidement; toutefois, le fait ne serait que naturel au commencement de la campagne.

En contrats, les affaires continuent à être occasionnelles et sans grande importance au fond. La fermeté cependant prédomine et c'est sur la cote de P.T. 69 3/4 que les 3 mois ont clôturé aujourd'hui. La spéculation ne se laisse pas encore entraîner à s'intéresser à l'article.

L'Angleterre semble bien disposée pour nos graines et les affaires depuis quelque temps en cet article se suivent d'une façon plutôt régulière. Hull avait reculé sur notre faiblesse pour le disponible, mais il a vite repris et les cours actuels sont de £ 7.10/- pour le Septembre, £ 7.1.3 à £ 7.2.6 pour l'Octobre et £ 6. 17/6 pour les 3 mois Novembre-Janvier.

Alexandria General Produce Association

Section Cotonniere

Questionnaire de Septembre 1907.—Prière de répondre avant le 29 Septembre en vous servant de la langue que vous préférez.

1. — Dites-nous si la température en Septembre a été favorable?

2. — Dites-nous si l'on a constaté des vers et des brouillards en Septembre?

3. — Ces différentes causes ont-elles fait des dégâts aux Cotonniers, et à combien les estimez-vous?

4. — La cueillette a-t-elle commencé, et jusqu'à quel point est-elle en avance ou en retard, chez vous, en comparaison de l'année passée?

5. — Croyez-vous que la première cueillette sera supérieure ou inférieure à celle de l'an dernier et de combien?

6. — Que pensez-vous des perspectives de la cueillette de coton dite "Nili"?

7. — La récolte, chez vous, sera-t-elle supérieure ou inférieure à la précédente et de combien?

8. — Le rendement à l'égrenage est-il égal, supérieur ou inférieur à celui de l'année dernière et de combien pour cent, pour: le Mit-Afifi? l'Abassi? le Joanovich? l'Ashmouni?

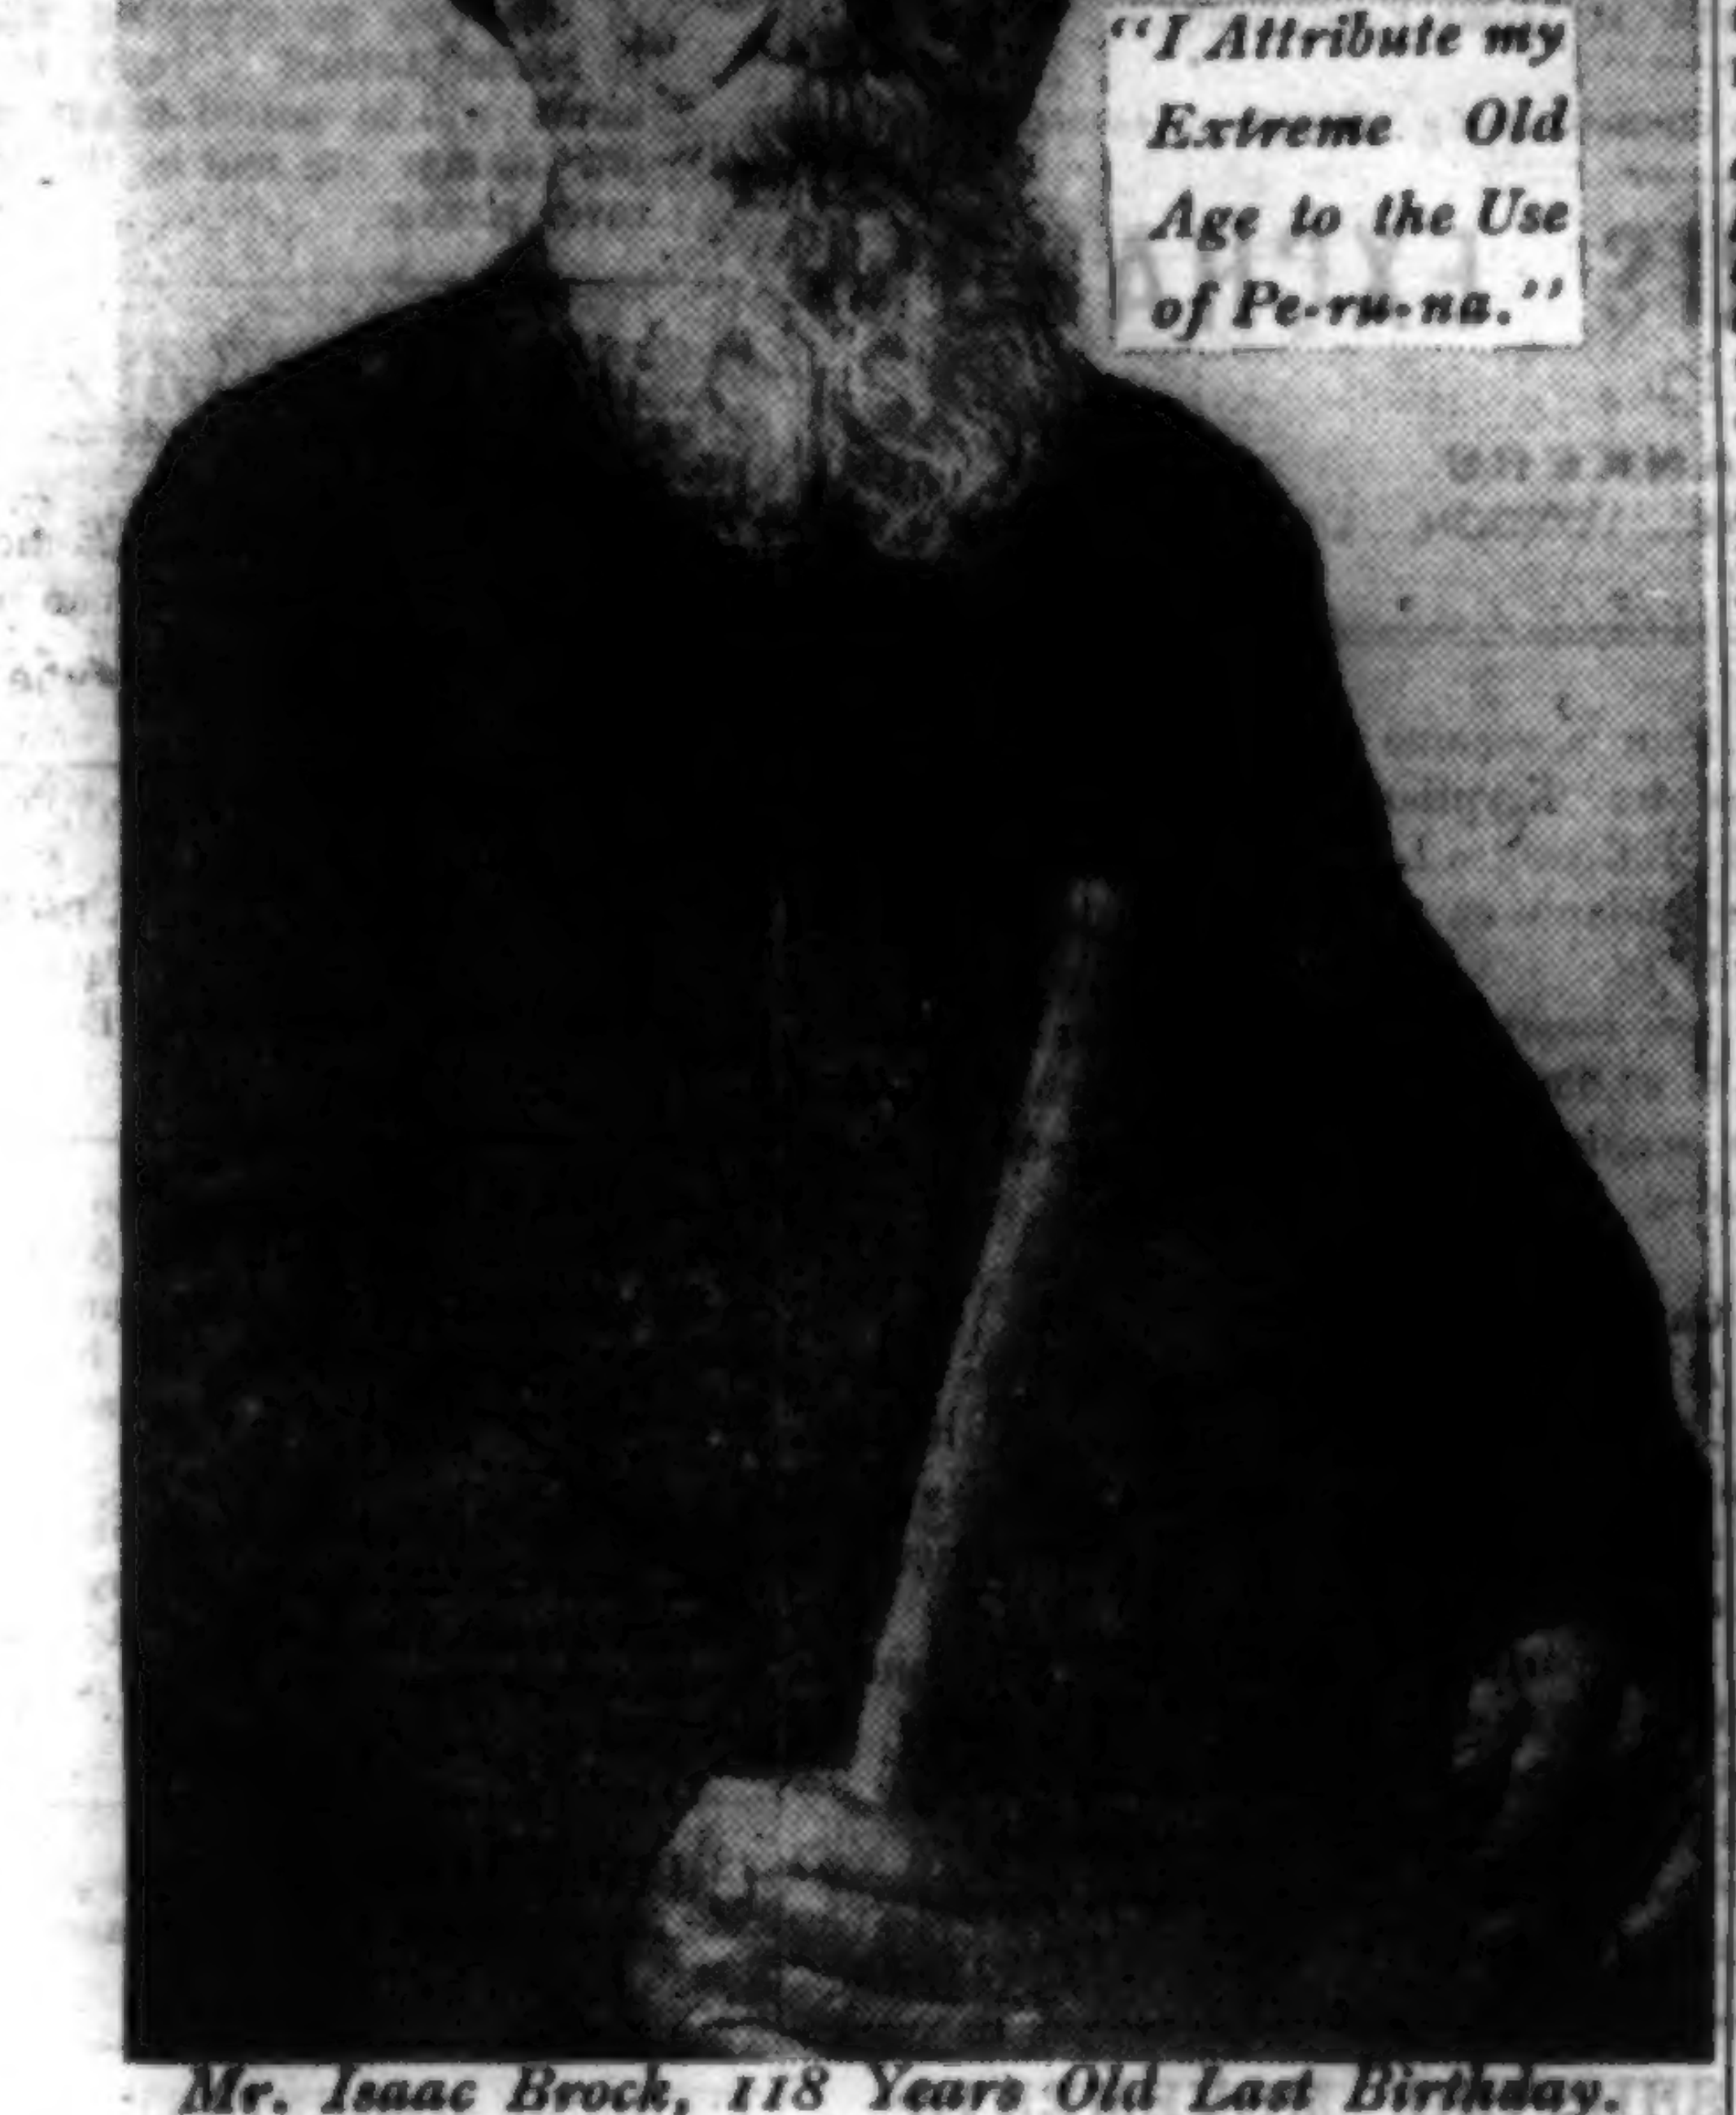
9. — Quel est l'aspect des cultures en général?

Dans l'intérêt général vous êtes prié de répondre au présent questionnaire.

Pour le Comité
Le Président en fonction,
H. Bindernagel

THE OLDEST MAN IN AMERICA

Escaped the Terrors of Many Winters By Using Pe-ru-na.



"I Attribute my Extreme Old Age to the Use of Pe-ru-na."

Mr. Isaac Brock, 118 Years Old Last Birthday.

ISAAC BROCK, a citizen of McLennan county, Texas, has lived for 118 years.

For many years he resided at Bosque Falls, eighteen miles west of Waco, but now lives with his son-in-law at Valley Mills, Texas.

Some time ago, by request, Uncle Isaac came to Waco and sat for his picture, holding in his hand a stick cut from the grave of General Andrew Jackson.

Mr. Brock is a dignified old gentleman, showing few signs of decrepitude.

His family Bible is still preserved, and it shows that the date of his birth was written 118 years ago.

Born before the United States were formed.
Saw 22 presidents elected.
Pe-ru-na has protected him from all sudden changes.
Veteran of four wars.
Shod a horse when 99 years old.
Always conquered the grip with Pe-ru-na.
Witness in a land suit at the age of 110 years.
Believes Peruna the greatest remedy of the age for catarrhal troubles.

IN speaking of his good health and extreme old age, Mr. Brock says:

"After a man has lived in the world as long as I have, he ought to have found out a great many things by experience. I think I have done so.

"One of the things I have found out to my entire satisfaction is the proper thing for ailments that are due directly to the effects of the climate. For 118 years I have withstood the changeable climate of the United States.

"I have always been a very healthy man, but, of course, subject to the affections which are due to sudden changes in the climate and temperature.

"As for Dr. Hartman's remedy, Peruna, I have found it to be the best, if not the only reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy.

"It exactly meets all my requirements. It protects me from the evil effects of sudden changes; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine.

"When epidemics of la grippe first began to make their appearance in this country I was a sufferer from this disease.

"I had several long sieges with the grip. At first I did not know that Peruna was a remedy for this disease. When I heard that la grippe was epidemic catarrh, I tried Peruna for la grippe and found it to be just the thing."

In a later letter, Mr. Brock writes: "I am well and feeling as well as I have for years. I would not be without Peruna."

Yours truly,
Isaac Brock,

A letter dated July 8, 1906, written for Mr. Brock by his wife, Sarah J. Brock, states:

"Last winter I had just gotten up out of a spell of sickness, when I commenced taking Peruna. I think it improved my health very much."

In a postscript, Mrs. Brock adds: "He receives a great many letters inquiring about what Peruna will do. I do not answer them all, as I think they can get a bottle and try it."

For special directions everyone should read "The Ills of Life," a copy of which surrounds each bottle. Peruna is for sale by all chemists and druggists

The following wholesale druggist will supply the retail trade in Cairo and Alexandria, Egypt

E. DEL MAR.

Commercial & Financial Supplement
OF THE
"Egyptian Gazette."

The Commercial and Financial Supplement of the "Egyptian Gazette" is published at midday every Saturday in time for the Austrian Lloyd's mail. LONDON & PARIS EXCHANGE
LIMITED,
GENERAL BANKERS.
BASILDON HOUSE, BANK, LONDON, E.C.

Circulaire H. De Vries et Boutigny

NOTES ET CRITIQUES

Le Caire, Vendredi 20 Septembre.

Le taux de l'escompte libre à Londres est renseigné invarié à 4 pour cent.

Au Stock Exchange, le Consolidé anglais s'est maintenu hier à 82 1/8 et l'Unifiée à 101 3/4. La National Bank et l'Agricole ont été fermes à 20 1/2 et 8 1/4 respectivement. La Daïra Sanieh sans changement à 12 3/4. La Delta Light a haussé de 1/8 à 9 7/8.

A Paris, le Crédit Foncier Egyptien a gagné 1 franc à 688. La Banque d'Athènes est restée invariée à 112 et les Lots Turcs à 167.

⁂

Ici, après un début un peu mou, la séance s'est notablement améliorée, surtout vers la clôture, où à la suite de demandes relativement nombreuses, presque toutes les valeurs traitées se sont inscrites en bonne reprise. L'amélioration est évidente ; les ventes précipitées ont complètement cessé et un marché normal bien qu'encore un peu calme, s'est rétabli. On commence du reste à comprendre, que les craintes de grosses ventes pour le compte des établissements en liquidation ne sont pas à redouter, l'intérêt de ces derniers étant de ne placer leurs titres dans le public que lorsque l'épargne pourra les absorber, sans risquer de compromettre une seconde fois la stabilité actuelle, conquise non sans peine.

Encore une fois, au risque de nous répéter, nous doutons fort que les acheteurs d'aujourd'hui aient à se repentir de leur audace.

Dans le compartiment des Banques, l'Agricole hausse à 8 1/8-3/16 et la Banque d'Orient se consolide à 118. Le Comptoir Financier et Commercial s'améliore à 2 3/8.

La fondateur H. de Vries and Boutigny Ltd. de 5 3/8 avance à 5 3/4.

Les Jouissances Eaux du Caire baissent à 191. La Daïra Sanieh mollit à 12 11/16. Le Crédit Foncier Egyptien se relève à 685. La Béhéra est moins soutenue à 20. L'Allotment est en reprise à 2 5/16 tandis que sa part fléchit à P.T. 63-64. La Compagnie Immobilière tombe à 315. L'Enterprise and Development est ramenée à 8 3/16 alors que sa fondateur accentue sa hausse à 11. La Société d'Entreprises Immobilières et Travaux gagne 1/4 à 2 3/8 sur de fortes demandes et la part se maintient à P. T. 42.

Dans le groupe des Hôtels, les Bachler sont mieux tenus à 6-6 1/16. Les fondateurs National Hotels remontent à P.T. 33 et les Ritz favorisés haussent à 0 11/16.

Parmi les petites valeurs, la Delta Land très animée s'inscrit à 1 3/4 en gain de 1/16. Les Markets se raniment à 28/6. La Salt and Soda est faible à 18/-18/3. Les Walker and Meimarachi sont un peu mieux disposées à 0 3/8 et les Ordinary Khedivial Mail de même à 20/6 Les Abdy s'alourdissent à 0 1/2.

⁂

Le marché des valeurs étant fermé les samedis pendant la saison d'été, le prochain numéro de notre Circulaire ne paraîtra que le Lundi 23 Septembre courant.

⁂

Par suite du transfert des bureaux de la H. de Vries and Boutigny Ltd. dans ses nouveaux locaux de la rue Soliman Pacha N°. 10, Immeuble Osman Bey Chérif, à partir du 1er Octobre prochain, il est possible qu'il se produise quelques irrégularités dans la réception de notre Circulaire.

Nos lecteurs voudront bien nous en excuser, nos mesures étant prises pour atténuer le plus possible les inconvénients du changement des services d'expédition.

⁂

Le placement des 40 millions de dollars de bons 4 ½ % de la ville de New-York, amortissables en cinquante ans, a été un succès incontestable. Il a été reçu non moins de 960 demandes portant sur un total de 170 millions de dollars. La souscription a été couverte plusieurs fois. Celle de MM. J. P. Morgan, National City Bank, Harwey Fisk and Son, représente 100.677.000 dollars ; celle de Kuhn Loeb 10 millions de dollars en tranches de 1 million de dollars à des prix variant de 100,20 à 103.

La firme Abraham White Bond Co. a souscrit toute l'émission à un prix élevé. Il y a eu peu de souscriptions étrangères.

Nos lecteurs se rendront compte que la situation en Amérique n'est pas si mauvaise qu'on le prétendait généralement et que le reste du monde peut envisager sans optimisme exagéré une détente monétaire pour la fin de cette année. Et c'est tant mieux pour l'Egypte, qui par la "loi des marchés communiquants" en ressentira favorablement les effets.

Pour la semaine au 5 Septembre, les recettes des "Egyptian Markets Ltd." ont été de 424 L.E. contre L.E. 442 pour la période correspondante en 1906, soit une diminution de L.E. 18.

Les recettes totales à ce jour s'élèvent à L.E. 27,958 contre L.E. 24,339 en 1906, soit un excédent de L.E. 3,559 en faveur de cette année.

⁂

Carnet de l'actionnaire.

A partir du 1er Octobre prochain le coupon N°. 11 des obligations 4 % Eaux du Caire 1ère émission sera payé aux guichets de la National Bank of Egypt au Caire, à Alexandrie et à Londres.

— A partir du 1er Octobre prochain le coupon N°. 5 des obligations 4 % Eaux du Caire 2me émission, sera payé au Caire à la Caisse de la Société et à Alexandrie, aux guichets du Crédit Lyonnais et de la Banque Impériale Ottomane.

MUNICIPALITE D'ALEXANDRIE

AVIS

La Municipalité met en adjudication les travaux de construction de canalisation dans les rues El Enani et Emam Aly.

Le cautionnement est fixé à L.Eg. 40 (quarante).

Le cahier des charges est déposé au bureau Technique où il peut être consulté par les intéressés tous les jours de 9 h. à midi, les jours fériés exceptés.

Les offres devront être adressées sous pli cacheté à Monsieur l'Administrateur de la Municipalité avant le 1er Octobre 1907.

Elles pourront également être déposées en séance de la Délégation le même jour à 5 h. p.m.

L'enveloppe devra porter en outre la mention : Soumission pour canalisation des rues El Enani et Emam Aly.

Le cautionnement ou le reçu d'une banque, d'après les conditions du cahier des charges, devra être remis séparément au Service de la Comptabilité générale avant l'ouverture des offres et au plus tard le 1er Octobre à midi.

Toute offre qui ne remplit pas les conditions ci-dessus sera écartée.

Alexandrie le 18/9/07.

Le Vice-Président.
30938-3-3 (signé) Dr Schiess.

AVIS AU PUBLIC

Plusieurs cas de rage furieuse du chien ayant été constatés par le Service Vétérinaire Municipal en très-peu de temps, une recrudescence de la maladie est à craindre (les chiens reconnus enragés ayant certainement mordu nombre de leurs congénères).

La Municipalité ne saurait trop recommander aux propriétaires de chiens de se conformer strictement au Règlement Municipal qui prescrit le *musellement obligatoire et la tenue en laisse.* Ces deux mesures observées avec persévérance permettront d'enrayer le mal et même de le faire disparaître à bref délai.

Le Vice-Président.
(Signé) Dr. Schiess.
Alexandrie, le 18 Septembre 1907. 30947-3 2

AVIS

Le Public est informé que par suite des réparations à faire. Le Pont Ibrahim sera fermé à la circulation publique pour les nuits du 23-24 ; 24-25 ; 25-26 ; 26-27 Septembre courant et ce depuis 10 heures p.m. jusqu'à 5 heures a.m.

Le Vice-Président,
(Signé) Dr. Schiess.
Alexandrie, le 19 Septembre 1907 30962-3-1

Societe Internationale des Employes D'ALEXANDRIE

Siège Social Rue Sidi el Metwalli No. 30 et Rue Hammam el Zahab No. 1 au 1er Etage

A BROKEN-DOWN SYSTEM.
This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is *increased vitality*—vigour—

VITAL STRENGTH & ENERGY
to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of the celebrated life-reviving tonic

THERAPION No. 3
than by any other known combination. So surely as it is taken in accordance with the printed directions accompanying it, will the shattered health be restored,

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH,
and a new existence imparted in place of what had so lately seemed worn-out, [illegible] and valueless. This wonderful medicament [illegible] vegetable and [illegible] agreeable to the taste—suitable for [illegible] conditions in either sex; and it is difficult to imagine a case of disease or derangement whose main features are those of debility that will not be speedily and permanently benefited by this never-failing recuperative essence, which is destined to cast into oblivion everything that had preceded it for this wide-spread and numerous class of human ailments.

THERAPION is sold by the principal Chemists throughout the world. Price in England 2/9 and 4/6. Purchasers should see that the word "THERAPION" appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

Sold by E. Del Mar, Alexandria, Cairo & Port Said

DR. LE CLERC'S PILLS
For the Liver & Kidneys
are an unfailing and reliable remedy for diseases of these important organs, gout, rheumatism, gravel, pains in the back and kindred ailments (acquired or constitutional). Sold by principal Chemists, not in loose quantities, but only in boxes, price 2s. 2d. bearing the British Government Stamp with the words Eugene Le Clerc, impressed thereon to protect the public from fraud

DR. LE CLERC'S SOAP.
Medical, antiseptic, used and recommended by eminent dermatologists in the treatment of eczema, lepra, psoriadis, ulcerations, skin eruptions, itching and irritating skin humours, baby rashes, etc., also a prophylactic against the risk of contracting disease and infectious disorders generally. Its healing properties greatly minimise the inconveniences of shaving in cases of pimples, spots, tecsene. In Tablets, price 1s. sold by Max Fischer, Cairo and Alexandria.
